Vaporesso Vape Kits

Master Your Vape

The Ultimate Vaporesso Buyer's Guide.

Find your perfect device, maximize your flavor, and vape smarter with **The E-Cig Store UK.**

NotebookLM

Engineering the Standard in UK Vaping

Precision Technology

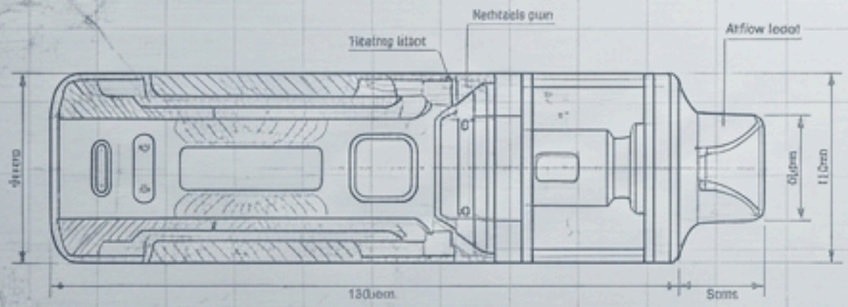
Driven by proprietary R&D to deliver unmatched flavor consistency and leak resistance.

Built for Real Life

From sleek everyday carry to rugged drop-proof mods, every device undergoes rigorous durability testing.

Sustainable Evolution

Leading the shift away from single-use disposables with high-efficiency, refillable, long-lasting pod systems.



Expert Callout Box

Innovation meets reliability. Vaporesso engineers devices that simply work, day in and day out.

Vaporesso

The Anatomy of a Vaporesso Device

The Pod/Tank

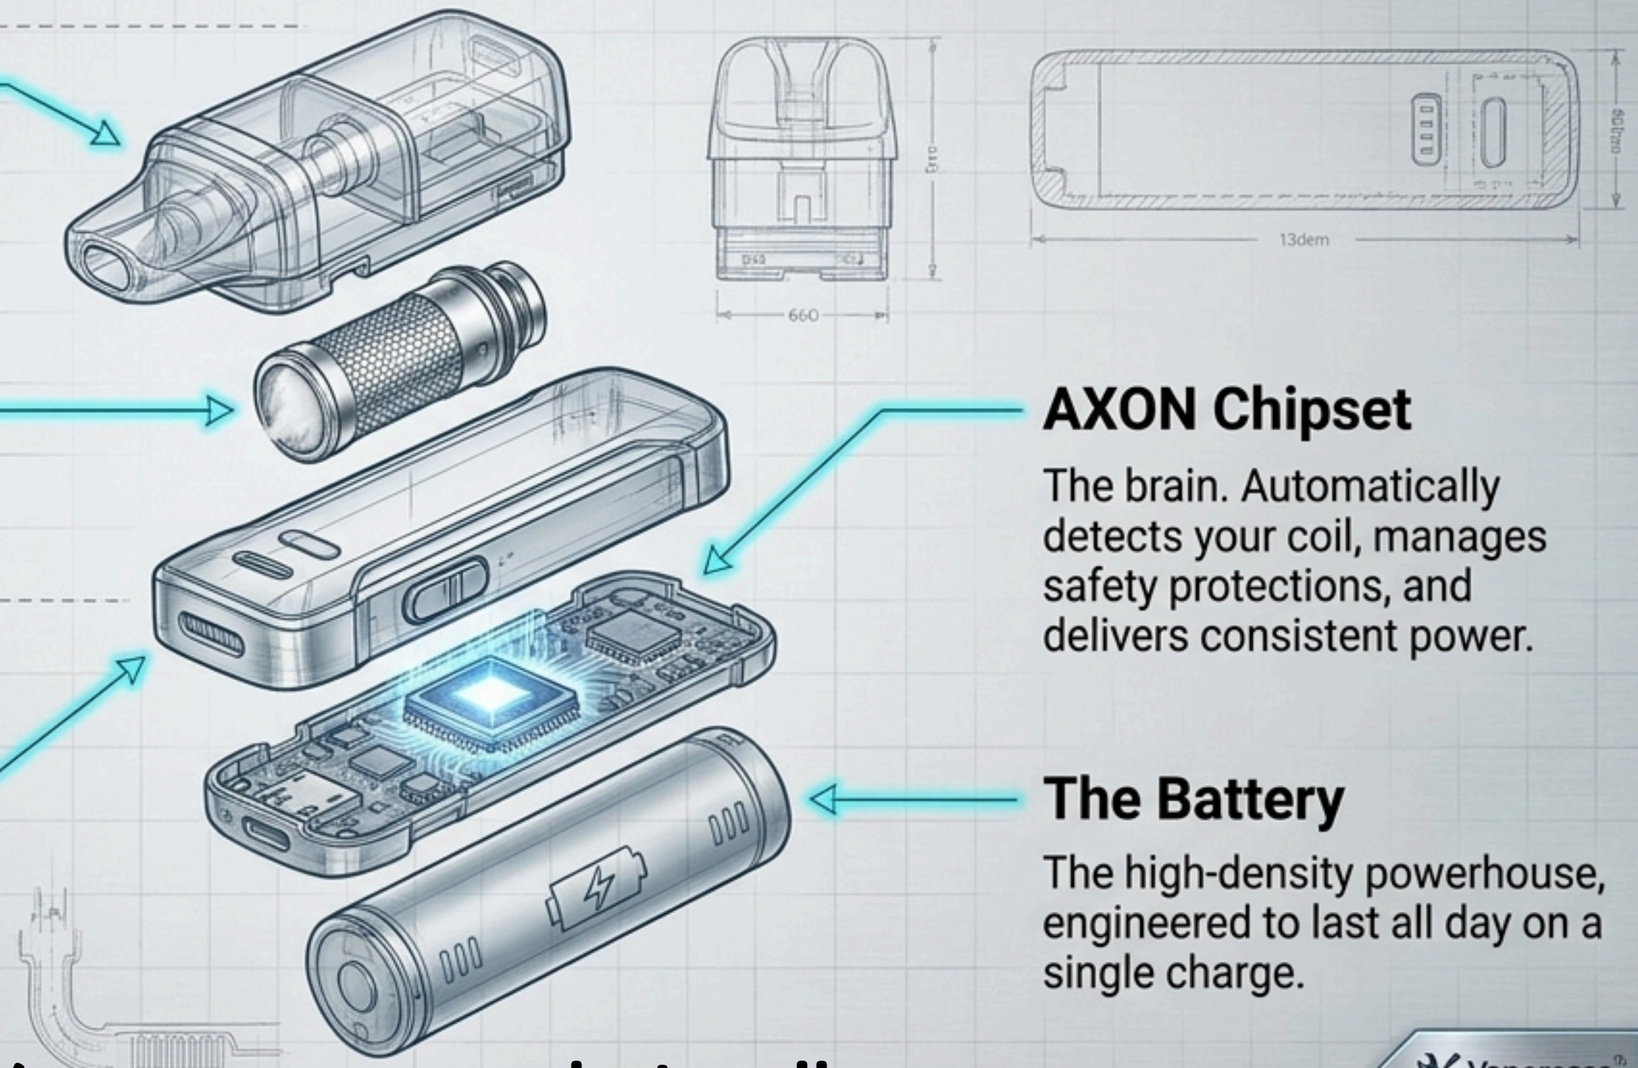
A leak-resistant reservoir that securely holds your e-liquid.

The Coil (COREX)

The heating element where the magic happens. Fluffier cotton and morph-mesh wire vaporize liquid instantly.

Airflow Control

The precision slider. Close it for a tight, cigarette-like draw; open it for airy, dense vapor.



AXON Chipset

The brain. Automatically detects your coil, manages safety protections, and delivers consistent power.

The Battery

The high-density powerhouse, engineered to last all day on a single charge.

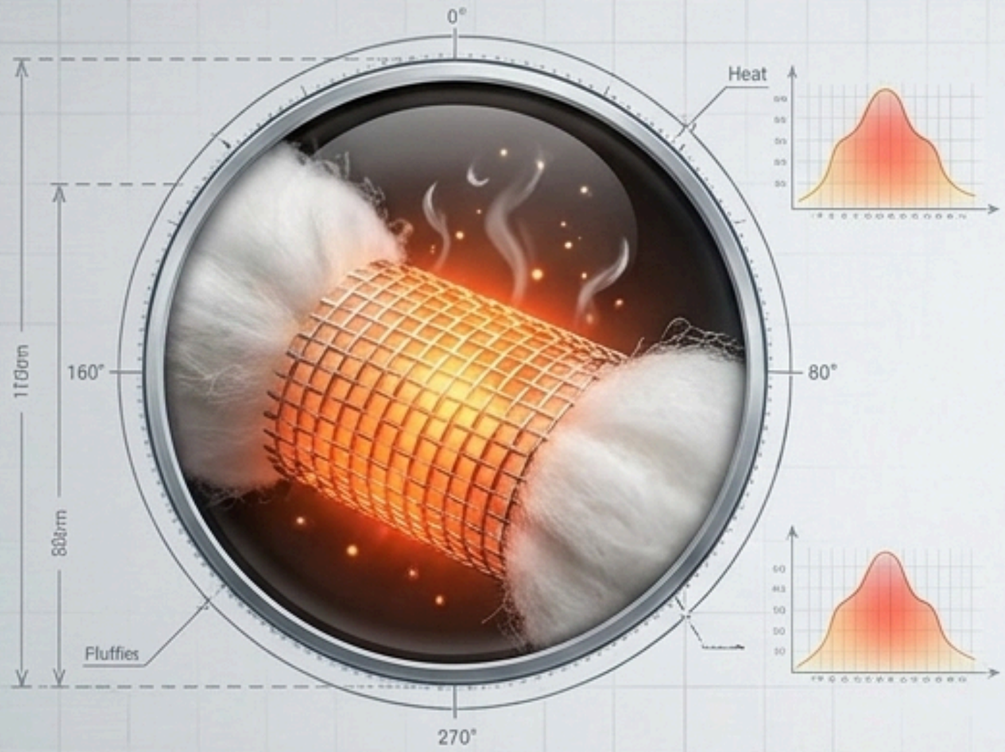
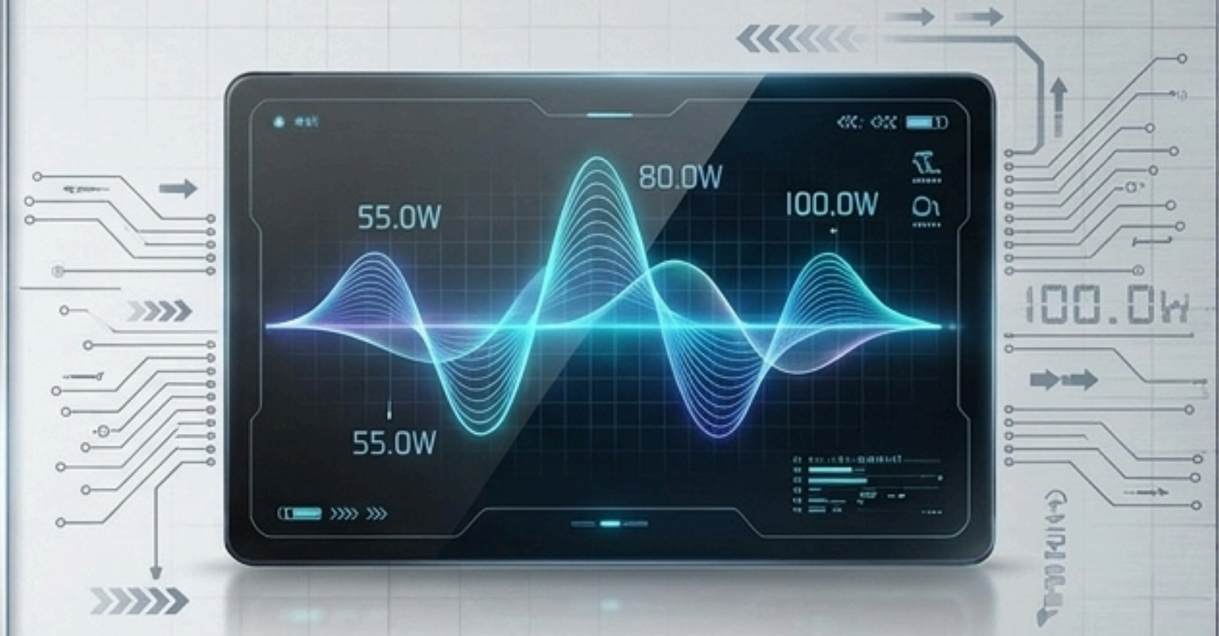
Vaporesso

Proprietary Technology Under the Hood



COREX 2.0 Heating Tech

- Upgraded morph-mesh structure and fluffier cotton.
- Delivers 30% more aroma.
- Extends pod lifespan and increases vapor production by 15%.



AXON Chip Intelligence

- **Smart Mode:** Instantly reads your coil and locks in the perfect wattage to prevent dry burns.
- **Pulse Mode:** Fires rapidly throughout your puff to maintain rich, consistent flavor from start to finish.
- **F(t) Mode:** Gradually adjusts the temperature curve during the draw to unlock complex e-liquid flavor notes.

Vaporesso

Find Your Perfect Vaporesso Match

Expert / High Customization

ECO Nano

The efficient, all-day workhorse. Ultimate disposable alternative.

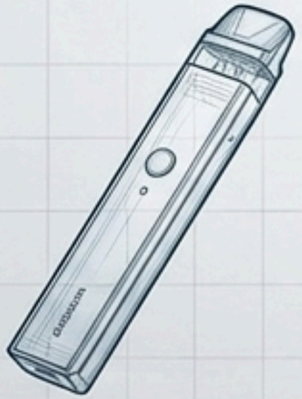
ARMOUR

The indestructible powerhouse. Built for rugged outdoor environments.

Tight MTL / Cigarette-like

Draw Style

Open DTL / Big Clouds



XROS

The flavor champion. Premium everyday convenience.

LUXE

The versatile pocket-mod. Maximum power in a compact shell.

Beginner / Low Maintenance

Vaporesso

XROS 4 Series: The Flavor Champion

Ideal For: Flavor chasers who demand a premium, customizable Mouth-to-Lung (MTL) experience.

- **Build:** Premium aluminum alloy unibody.
- **Airflow:** Sliding rear control for millimeter-perfect draw resistance.
- **Filling:** Easy snap-off top-fill system (no need to remove the pod).
- **Engine:** Fully integrates the upgraded COREX 2.0 pod system.

The Verdict: The undisputed gold standard for everyday pod vaping in the UK. Clean, stylish, and incredibly flavorful.

Vaporesso th

ARMOUR Series: Built to Survive the Elements

Vaporesso Armour Ultra Vape Kit

Ideal For: Outdoor workers, clumsy vapers, and advanced cloud-chasers demanding absolute durability.

- **Armor Plating:** Full Thermoplastic Polyurethane (TPU) outer shell—highly drop and scratch resistant.
- **Uni-Lock:** The fire button slides vertically to securely lock the device in your pocket.
- **Quick Access:** Spring-loaded battery doors and tank release buttons for instant, effortless.
- **Battery Power:** Max (Dual 21700/18650 for 220W), S (Single 21700/18650 for 100W), G (Built-in 3000mAh).

The Verdict: Unbreakable design meets flagship expert performance.

Vaporesso

Match Your Coil to Your E-Liquid

Path A

High Resistance
(0.8Ω - 1.2Ω)

Draw: Tight, cigarette-like (MTL)

Best Ratio: 50/50 VG/PG

Nicotine: Nic Salts for a smooth hit, or Freebase for a stronger throat hit.

Perfect Pairings: Black Note Pure Tobacco blends.

Path B

Low Resistance
(0.15Ω - 0.6Ω)

Draw: Open, airy clouds (DTL/RDL)

Best Ratio: High VG (70/30)

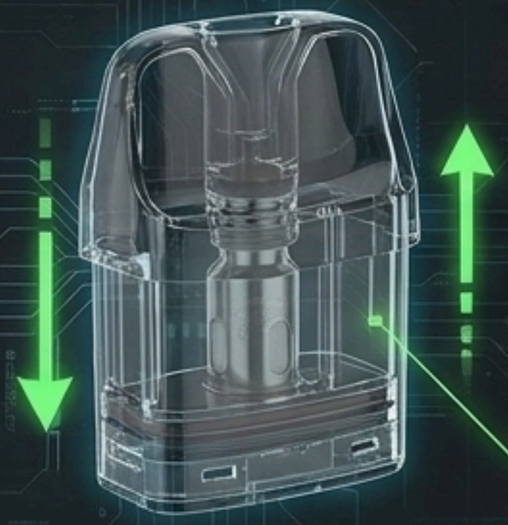
Nicotine: Low strength Freebase (3mg - 6mg)

Expert Tip: Using thick High-VG liquid in a 1.2Ω coil will cause dry hits. Always match the thickness to the coil!

Vaporesso

Coil & Pod Masterclass

Integrated Pods (XROS, ECO Nano)



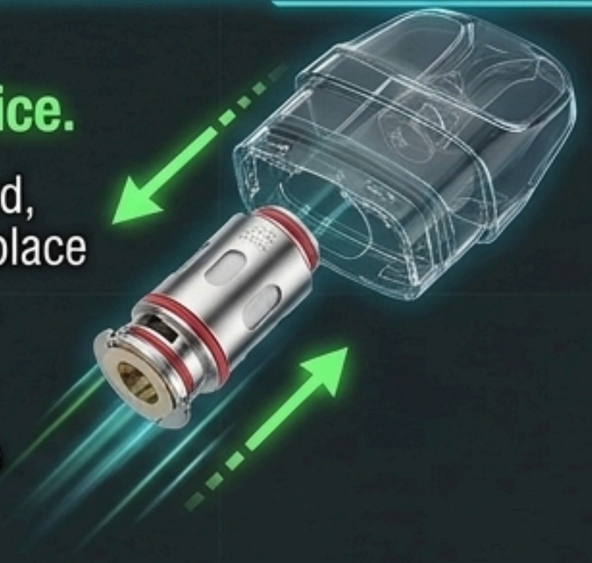
The Convenient Choice.

- The coil is built into the plastic pod. When the flavor fades, simply dispose of the entire pod and click in a new one. Zero mess.

Replaceable Coils (LUXE, ARMOUR via GTX)

The Custom Choice.

- Keep the plastic pod, but pull out and replace the metal GTX coil.
- Cost-effective and offers a massive range of resistance options.



The Golden Rule: Prime Your Coil

Whenever you fill a brand-new pod or coil, wait exactly 5 minutes before vaping. This allows the cotton to fully saturate, preventing an instant burnt taste.

Vaporesso

The Troubleshooting Toolkit

Symptom	Diagnosis	Instant Fix
Burnt Taste	Coil reached its lifespan **OR** was fired before liquid soaked in.	Replace coil/pod. Always wait 5 mins after the first fill.
Leaking Tank	Cap left open too long **OR** using e-liquid that is too thin (wrong VG/PG).	Close top cap immediately after filling. Check O-rings. Ensure coil is seated firmly.
Spitback in Mouth	Condensation built up in the chimney.	Flick the device firmly downwards to clear the mouthpiece.
Device Won't Fire ("Check Atomizer")	E-liquid grime blocking the connection.	Clean the gold 510 pins on the battery and the base of the pod with dry tissue.

Vaporesso

Stay Authentic, Stay Safe

Fake vapes use dangerous batteries and toxic materials.
Always verify your Vaporesso hardware.

1. Locate

Find the anti-counterfeit label on the side of the box.

2. Scratch

Reveal the hidden QR code under the silver coating.

3. Scan

Use your phone camera.

Crucial Warning: Ensure the URL is exactly **www.vaporesso.com**.
Counterfeits often use fake sites like vapresso.com or vaporesso.vip.
Look for the green “Approved Authentication” message.

Vaporesso

Why Choose The E-Cig Store UK?
